Augustion Make They Desirey the Railroads Why is this Loan called the "Seven Thirty" Loan? Answer:
It bears Interest, in currency, at the rate

of Seven Dollars and thirty cents, each year, on every hundred dollars; making the interest as follows : One cent per day on each \$ 50 note. Two cents " 100 st

When and how can they be obtained? They are for sale, at per, and accrued interest, by all Sub-Treasuries, National and other Banks, and all Bankers and Brokers.

When is the interest payable, and how can it be collected?

The coupons or interest tickets are due 15th of February and 15th of August in each year, and can be cut off from the note, and will be cashed by any Sub-Treasurer, U. S. Depository, National or other Bank er Banker.

When must the Government pay off these deoxis applied. They are due in two years and a half in our lines, confirm the report that Sher from the 15th of February, 1865, vis., on | man having moved from Winshoro, S. C.,

Answer: Posts fingst They cannot be taxed by States, Counties, or Cities, and this saves you two to five | willing to give this proof of their loyalty per cent. on your income, as all railroad to the government. and other bonds, and stocks, mortgages, &c., are taxed, not only by the Government, but by States, Counties and Cities.

8th Question : How does the Government raise the money to pay the interest, and is it safe and sure

The Government collects, by taxes, internal revenue, and duties on imports, fully three hundred millions each year. This is nearly three times as much as is needed to pay the interest on all the debt, and as soon as the war is ended, the amount not needed to pay the interest will be used in paying off the debt. Our Government has twice paid off all her debt, and can easily do so again. The interest is sure to be paid promptly, and the debt itself is the very safest in the world. It is as safe as a mortgage on a good farm, and pays a better interest. It is, in fact, a First Mortgage on

all lands, all incomes, all railroad and canal bonds, and bank or other stocks, mortgages, &c. Nothing can be safer, for we are all bound for it, and all that we have is held and firmly bound for the payment of principal and interest. How foolish those people are, who keep idle, and locked up, their gold and greenbacks, or purchase mortgages or railroad stocks and bonds, which pay only 5 or 6 per cent. interest, when these Seven-Thirties pay (counting the premium on Five-Twenties) over 10 per cent., and

so much safer and surer. 9th Question : How many Seven-Thirties are there, and

how much remains unsold?

10th Question : How long will it take you to sell the bal-

There are about 800 National Banks all engaged in selling them; also a large number of the old banks, and at the least three thousand of private bankers and brokers, and special agents will be engaged in all parts of the country in disposing of them

to the people. 11th Question : How long will it take to sall the whole? In less than three months they will be

all sold, and will no doubt then sell at a premium, as was the case with the old Seven-Thirties, the first Twenty-Year Loan, and the Five-Twenties. The above questions and answers, it is believed, will give full information to all. cent chesper than any other house in the If not, the General Subscription Agent, or any of the Banks or Bankers employed to sell the Loza, will be gled to answer all questions, and to furnish the Seven-Thir-Congress Guiters, Balmorais, &c., buy at
